## SUMMARY

Software Engineer with 2+ years of experience building SaaS applications using React, TypeScript, Java, and cloud-native tooling. Delivered end-to-end features, integrating APIs in complex environments and passionate about using AI tools to solve problems.

## EXPERIENCE

**Vena Solutions** – Authentication, Vena for Microsoft Teams

Toronto, ON

Software Developer 2

Jul 2024 – Jun 2025

- Launched **Vena Copilot for Microsoft Teams**, embedding AI-generated reports and insights into enterprise workflows using **React** and **TypeScript**, and shipped the application through the Microsoft Teams App Store
- Reduced reporting steps by **3x** by architecting and delivering the end-to-end '**Open in Teams**' feature by integrating Microsoft Graph APIs, enabling in-app Excel previews within Microsoft Teams
- Engineered and shipped authentication microservices in **Java**, designing **REST APIs** to support SSO and 2FA flows
- Optimized **MySQL** database performance with Redis caching and efficient indexing which improved API fetch times by **20%**
- Containerized the Vena Copilot micro frontend using **Docker**, leveraging **AWS S3** to store and validate build artifacts
- Wrote unit and integration tests using **Jest** and **Playwright** with **98%** coverage to validate components and support changes
- Managed large-scale deployments and **CI/CD** pipelines using **Jenkins**, implementing retries, validation and automated test suites that reduced deployment errors by **30%**
- Enhanced observability by adding **Datadog** dashboards and log alerts that cut incident triage time from hours to minutes
- Collaborated with several engineering teams, participating in **50+** code and design reviews that improved code quality
- Leveraged AI-assisted development tools like **Cursor** and **GitHub Copilot** for prototyping, debugging, and test generation
- Facilitated **agile** ceremonies as **Scrum Master** using **Jira** to streamline sprint planning, and increasing sprint velocity by **15%**

**Vena Solutions** – Data Model Standardization

Toronto, ON

Software Developer Co-op

May 2022 – Aug 2023

- Constructed and unit-tested modeler features in React for Vena's SaaS platform used by **2000+** businesses worldwide, achieving **95%** test coverage with **Jest**
- Spearheaded frontend development for the Quick Start Wizard MVP, reducing customer onboarding time by **130+** hours, saving **\$10K+** per client in operational costs
- Developed a reusable TypeScript progress bar component for Vena's custom UI library adopted by **30** developers
- Cut Settings page render time by **85% (100ms to 15ms)** by modernizing legacy Backbone.js to React components

**Giden** – User Experience

Toronto, ON

Front-end Developer Intern

Sep 2020 – Dec 2020

- Built responsive navigation bar and sidebar in React with mobile-first CSS, improving usability across mobile devices
- Authored unit tests with Jest for UI components, raising reliability and preventing regressions across key user flows

## PROJECTS

**Blacklight** [[github.com/blacklight](https://github.com/blacklight)]

- Built Blacklight, an **AI firewall** for **LLM/RAG pipelines** that detects hidden prompt injections and obfuscated instructions in uploaded files using OCR and multimodal threat analysis

**Digest** [[github.com/digest](https://github.com/digest)]

- Developing an AI-newsletter platform with **Next.js** that ingests RSS feeds and generates AI summaries using OpenAI SDK

## EDUCATION & CERTIFICATIONS

**McMaster University**

Sept 2019 – May 2024

- Bachelor of Applied Science, Honors Computer Science (Co-op), **GPA: 3.7/4.0**

**AWS Certified Cloud Practitioner**

## TECHNICAL SKILLS

- **Frontend:** TypeScript, JavaScript, React, Next.js, HTML, CSS, Tailwind
- **Backend/APIs:** Java, Node.js, Python, Spring Boot, REST APIs, GraphQL
- **Databases:** MySQL, MongoDB, Redis
- **Cloud/DevOps:** Git, AWS (EC2, S3, Lambda), Azure (ACA, ACR), Docker, Jenkins, Azure DevOps, CI/CD, Datadog, Linux
- **Testing:** Jest, Playwright, JUnit, Feature Flags, TDD, Unit Testing
